

Artemis

Hello my name is Kaylie and a couple months ago we adopted an amazing puppy from your amazing facility, and I've seen a few posts about updates on adoption stories and I thought I'd give you an update :). Artemis (used to be Candycorn) is doing great, we have had a couple hick-ups with chewing and potty training (completely normal) but otherwise she has been amazing. Our older dog Spaz loves Arty, she may get on his nerves once and a while but she's picking up on his signs of being tired, she is always ready to play n knows when I need to take a break (I'm 31 weeks pregnant) she loves naps, n refuses to go to sleep till I cover her and our other dog up for the night. She is the perfect addition to our family. I'll send a couple of pics of both of my puppies (Artemis is the blonde n Spaz is the brindle one).
