

Bandit

We've had bandit (previously Harrison) for almost 3 months now and I just wanted to say, getting him was the best thing that's happened to me and my girlfriend. At first, bandit was shy and scared of older men, but ever since we took him home he brightened up and is just so happy now. He's always smiling and wagging his tail, wanting to go for runs and play fetch. We've always got our animals from the humane society on Fredericksburg Rd and we will continue to get our future family pets from there. Seeing all the posts of fostering and other animals that want a forever home makes us want to get him a brother or sister! Me and my gf are looking forward to visiting there again soon. Thank you guys so much <3

Aaron
