

Data

Hello,

About a month ago we adopted Data, a dog that had been there for more than 6 months. A dog that was used to being in a cage. A dog who didn't know what was next. Well let me tell you, Data has become a big part of our family. Me , my husband, and other puppy Bailey absolutely love her. She's so loving and a goof ball. Thank you for giving us the missing piece to our family.

And also, I would love for the girl who helped me during our visit know that Data is very loved and that I thank her for loving Data before she came home with us. I don't know her name and I wish I did. She had short hair, tattoos on her arm, and very nice.

Kassandra
