

Fuzzy

Hello,

My name is Briana. In 2008, my husband, then boyfriend, and I adopted a dog from you all. She was our first pet. I can't remember the name you all gave her, but she was a stray, chow/red heeler mix. I remember playing with her in one of the fenced in areas you all have at your facility and right away we knew she was going to be such a wonderful addition to our small family. We fell in love with her instantly and brought her home the same day. We named her Fuzzy.

Fuzzy moved into our first apartment and survived three flights of stairs for about two years. She was our guard dog, a snuggle buddy, a vacuum cleaner and our best friend all wrapped into one! We outgrew our apartment quickly, and before you knew it, we were purchasing our first home, primarily for her to have a yard. As I look back, Fuzzy was there for all of our big milestones. She was there throughout our renovations turning an outdated home into our own. She was there on our wedding day, and she was there as we expanded our family and welcomed our daughter. She saw how we quickly outgrew our home and moved into something a bit larger, with a bigger back yard for her of course! Fuzzy has been such a blessing to our lives!

On January 20th, 2019, we had to say goodbye to our beautiful Fuzzy. It was such a heartbreaking moment as she has brought over a decade of unconditional love into our lives. My daughter doesn't know a life without her. However, as we look back at all the wonderful moments we have had with her, I realized that none of it wouldn't have been possible without the work that you all are doing! She was brought into your facility as a stray, and you all cared for her before we found her. Even though it is extremely hard to accept that she is gone, I wouldn't have changed anything! Thank you all for the work that you all do for the animals you care for. It is because of the work that you all do that my family and I had such a wonderful addition for all those years! I hope this email reminds everyone at the San Antonio Humane Society that you all are not only changing an animals life, but you are also providing years of joy to the adoptive families.
