

# Thor

Dear San Antonio Humane Society,

I wanted to give you an update on Chaplin (now renamed Thor, because he is very mighty) who I adopted 1 week ago today.

This little guy is absolutely AMAZING. His exam and senior lab work did not reveal anything of concern and he has adjusted very well to his new life. It's hard to tell if he likes walks, food, or naps the most but he has enjoyed all three in abundance!

He has been extremely well-behaved and has become very popular at work and makes friends with everyone we meet. We are both looking forward to many more adventures together.

Thank you so much for the helping bring this little guy into my life, and for all that you do every day.

Best wishes,  
Emily and Thor
