

Abby

Let me begin by thanking the volunteers at the humane society. You all do such a wonderful job caring for the animals as they wait for their new homes. This summer I stopped by hoping to get my first dog. My family always had dogs, but I have never had my own. I picked out a special one and then kept walking around to see if there were any others I might want to visit. When I went back to my favorite pick, she was gone. I asked the volunteer if she had been adopted, but to my luck she was just hanging out in one of the outside visiting rooms with a volunteer. I went out to see her and she jumped right in my lap! She has been incredibly easy to train (housebroken in 2 weeks). She loves going on boats, she's tried swimming, and she loves running with me. There is one small problem: she hogs the bed! I changed her name from Beebee to Abby. Thank you for such a great dog!!!
