

Champ

This is Champ from northeast San Antonio. I waited a while to write so I could really check out my new family and home. I hit the jackpot with my new family. Within a day they took me to the Animal Hospital as I was having problems with my neutering job. I recovered in time for Thanksgiving. I met so many people and there was so much food. Then comes this thing called Christmas. We worked on Santa letters for a lot of boys and girls, I played with them as they came out of the printer. We sent all my friends at the Humane Society one too! I enclosed a photo of me with this fatso called Santa Claus right in my new house, didn't have to go to Pets Mart or anywhere! I love getting into the polar bears on the fireplace and the bells on their nice red collars. I've been going for walks, riding in the nice blue truck and trying to get to know Scooter the cat! That may take a while. I helped load the truck a few times. We sent presents of food, bones and toys for all the cats and dogs and a big load food and turkeys for some families. I got a fresh look and bath then Christmas came and I got new toys: a blanket with bones on it, bones in a candy cane, a nice blue penguin to chew on and more toys! I really like my new family and even the cat, this is a busy place but fun!

I hope all of you at the Humane Society get a good home like me-

CHAMP!!
