

Chimichanga

Me and my boyfriend adopted "Tammy", a Basset Hound/ Labrador mix from the Humane Society of San Antonio this past June. When we saw her for the first time we started to laugh because she looked so silly and had never seen a dog that looked like her before- the body of a Basset Hound with short little legs and the colors and features of a Labrador. We knew that she was going to be our life long companion from the moment we first met her. We had to wait for a month before we took her home because she was heart worm positive, so we would come every weekend to visit with her and see how she was doing. Now she has spent 7 months in our home with us and we couldn't be happier. She brings so much joy and happiness into our lives and loves to play and cuddle. We were quickly able to teach her the basic tricks like sit, shake, lay down and roll over. Now when we ask her to sit she does all of the other tricks one after another so she can get her treat faster. She's a smart dog. Her new name is now Chimi "Sunshine" Changa Lilly Ramilly, or Chimichanga for short. We wanted to pick a name that made us laugh as much as she does. She's one spoiled doggy. Attached is a picture of her going boogy boarding at the beach. Thanks for all you do!

Sincerely,
Joanna, Alfredo and Chimichanga
