

Izzy

Thanks so much for my dog IZZY. I adopted "BELLY FLOP" in October of 2007 when I came to visit the dogs at the Humane Society one day when I was feeling a little down. The minute I saw him he made me SMILE I knew he would be a wonderful dog. See that smile, that is what he does ALL the time... His name is IZZY now and I call him Dizzy Izzy as he is always so happy that he seems dizzy. When he first came to me he was 47 pound, he has gained a few pounds and weighs in at 97 pounds now. Izzy resides with 4 other dogs in my home and 1 cat. Izzy was a older dog about 5-6 when I got him. Even though he is considered a SENIOR there is nothing senior about him, he runs and jumps like he is a puppy still and when he does jump WATCH OUT.... Izzy protects my home but not because he is mean but due to his sheer size people tend to shy away from him. Little do they know he would only LICK them to death... He is a easy going big baby that loves to give kisses which can make you feel as if you just had a shower when he does. Izzy loves to go to the beach and frolic in the water with his siblings... Izzy is a member of the SAN ANTONIO BIG DAWGS a social group for large (50 lbs+) dog owners. Izzy keeps active doing fun dog things with all the other BIG DAWGS here in San Antonio. THANK YOU FOR BRING IZZY IN TO MY LIFE HE HAS KEPT ME SMILING NOW FOR YEARS....
