

Kaiser & Jazzy

Over the summer, my family and I decided we wanted a new member in the family. We had a cat named Queenie for about 9 years and had never had a pet since then.

In high school, I would volunteer my time at the Humane Society of San Antonio and saw the dire need for more people to adopt an animal. When the time was right to add a member of the family, I knew right where to go.

Kaiser, my three-year-old Great Pyrenees, joined the Hayes family over the summer. Kaiser has brought so much love, joy and happiness to our household. And we're not the only household on the block. When I adopted Kaiser, I knew he had been in the pound and was with two other dogs. One of the dogs Kaiser came with was "Jazzy." They had lived together before, but their owner had decided to take them to the pound. I knew my neighbor had been wanting a dog. How perfect would it be for two animals who have spent their entire lives together to be reunited once again? Well that's just what happened. My neighbor adopted Jazzy and Kaiser and Jazzy are now neighbors and some times have "play dates."

I thank the Humane Society of San Antonio and all of the people who support this great organization. With your help, you can continue to make people's lives happier, and save the life of an animal by giving them a loving home.

The proud owner of Kaiser,
Nichte Hayes
