

Lola

I would like to tell you what a blessing Lola our poodle has been to me and my husband. We adopted her on 8/15/09, her name was Sparkle. We feel like she has been with us forever now. When we first adopted her and brought her home she was very scared, and timid but man it didnt take much time for her to come out of her shell. When we first got her she would cower down at any move you would make and now she doesnt get scared easily like that. She did not like nor want to walk on a leash and now she cant wait to go for her walks and has no problem with the leash. She has never went to the bathroom in the house at all. She fit right in with us, she loves to nap with us and she is a power napper! I finally got to see her in action with other dogs this weekend and she had so much fun playing. She has been to the beach and went up to east texas a six hour drive and went riding in the woods on the 4wheeler and loved it. She goes just about everywhere with us! In the mornings when she goes out after sleeping all night she goes out to the front yard and she runs 90 miles an hour cutting corners around the trees it is so funny to watch you would think she was being chased or something! First thing she does when she comes back in is run and find my husband to give him lots of love and kisses!! She wasnt sure about toys or what to do with them for quite some time but she does now like her rope and her monkey that I will catch her defleaing!! She has been so easy to train commands and loves her treats! Thank you all so much for all that you do for these little animals and giving us a chance to enrich our lives with them. We love her dearly and are so grateful that we went to the Humane Society that day!
