

Robo

My daughter, who is 11 years old, wanted to adopt a dog from the Humane Society so we challenged her to save up \$110 for the adoption fees and other needs. In 2 months, her and her brother saved up enough money to adopt a dog by having a garage sale, working for family members and doing extra chorus. She saw a picture on the Humane Society website of a dog named "Oboe" and was determined that he was the one. So in late July, we went in and visited with "Oboe" and spent some time with him and decided to adopt him. We changed his name from "Oboe" to "Robo". He has been part of our family ever since then. We love him and spend lots of time with him. We can't imagine our lives without him. He is a very loving dog and adores our daughter and son. On Christmas morning, he joined the children in opening gifts and was happy to receive a new chew toy. We were told that he had been adopted twice from the Humane Society and then returned both times and we can't imagine why except that he was meant for us.

Thank you for your service to helping animals in need and finding happy homes for them!

Sincerely,

The Ferguson's
