

## Shelby

Hello, my name is Shelby and I was adopted October 10th by a family of 2 boys (6 and 9) and a Mommy and Daddy. They weren't sure what to name me right away, but one of the boys had a book by the name of Shel Silverstein, "The Missing Piece" and they all chimed..."SHELBY" and that was how I got my name. I was their missing piece.

Even though I had a little sinus problem (that the doctor took care of) I ran around and enjoyed playing in the home they gave me. I am so happy and loving that I hardly remember being in the kennel at the Humane Society. My Daddy takes me for walks every morning and my Mommy goes running and we have this "Good Morning kisses" when I see her coming up the path before the sun comes up and the boys are awake. I snuggle with the rest of the family all the time and love all the attention my neighbors give me while I prance around.

I was so excited to have my first Halloween and got to get my own trick or treat (a doggie cookie) which was given by a fellow dog mate dressed as Cookie Monster. So many happy memories already. I never will forget the kindness from the Humane Society and hope that other doggies get a family too. Even the cats. They need families, too, I guess. So, that is my success story and I am so grateful for this chance to be in their hearts and make them complete. They complete me too. I am just too young to know it yet.
