

Spike

We adopted Spike in September and at first it was a rough transition. From the information we were given about his previous owner, we knew that we had to give him a lot of love. And that is exactly what we have done. Today he is the happiest dog I have ever been around. He is wild with happy energy. My daughter Makayla is the closest to him. They can spend hours playing fetch or just rolling around on the floor. He sleeps between my husband and I every night cuddled up against one of us at all times. Thank you for the chance to complete our family. Spike is truly a blessing.
