

From Jim:
Frederick

"I adopted Frederick from the Humane Society on St. Patrick's Day. He has been a joy to have. My previous dog, Brownie died in January, and I missed him very much. I got on the Internet and looked through the many dogs featured, and Fred took my eye. He resembles Brownie a lot, and when I met him, he had similar personality traits too. Fred has some great personality traits of his own, and I could not be more delighted.

Fred has brightened my life a lot. I am also very impressed with the staff at the Humane Society, their kindness toward me, and the obvious good care Fred received there. Before we left many of the employees bade Fred a loving farewell, and I left there feeling very nice inside. He's really a special dog. My cat wasn't too fond of him when he came home to live with us, but even she has settled down and accepted him pretty well. He is wonderful with her. I will definitely recommend the Humane Society to friends and family looking for a wonderful pet. I certainly hit the jackpot with Fred, and there are so many wonderful pets there waiting for a good home."
