

From Kimberly Kuklewski:
Kelly

"Just a quick follow about Kelly. She is doing great and watching me type this note. Kelly has adjusted well...She has a new sister Katie (Golden). Katie lost her best friend Blade in May of this year. (Blade 16 year old Dobby)....so our family was open to have a place to share the love of a new family member...Miss KELLY!!! Kelly already know sit, get in your bed and is house broken as well. She still like to find her food in the trash if possible..(Old bad habits we are trying to break)...Kelly and Katie play for hours on the back porch and then nap the rest of the time on their doggie sofa's....Kelly sleeps by our bed at night and watches over us....We are so happy to have her with us and she is just a wonderful new addition to our family.

Thanks so much. God Bless."
