

Tinley

In February of this year I and my two young daughters went to the Humane Society on Fredericksburg road. We had asked to see a few of the puppies and took time to play with them in the little rooms. We could not make up our mind because we were focused on getting a little male puppy. A young lady who worked in the puppy area walked us over to this little girl puppy named, Jam. I told her we really wanted a male.

She asked that we take a little time with Jam and just see how wonderful her personality was. Even though I didn't really want a female, we took it to a room anyway. I immediately fell in love with Jam, and within minutes I knew we had to have her in our family. Three months later, she is a MAJOR part of our family. We renamed her, Tinley. I am so very grateful for the worker who asked me to just take the time with her and give her a chance. We love Tinley and she has found a permanent home.....THANK YOU SO MUCH!!!!!!

Jill, Marisa, Shelby and Tinley
