

Zoey Lou

My 8 year-old step daughter, Kristen, had been begging for a dog for her birthday. So I decided to surprise her. I went to the humane society to look around for the "perfect" dog for her. I looked at many dogs and they all tugged at my heart strings. Then I saw Heather, a three-year-old small fawn Pug who was extremely thin but had lots of energy and wanted so badly for me to take her out of the cage. After getting assistance to get her out, I spent time with her and she did not want me to leave her side. She even jumped in my lap! She had some health problems though. She was heartworm positive, and it was obvious she was blind in one eye. But I could not wait to take her home. I found out from the staff, this sweet pug had been found wandering on the highway. She had a stray hold on her at the Humane Society, but fortunately for me and her, no one claimed her.

She is now Zoey Lou, a little chubby, heartworm and parasite free, and become the the perfect dog for me. From the beginning, she would not leave my side and still does not. Zoey Lou is so sweet and loving! Thankfully, my step daughter received many other presents that birthday too. One important gift she received is the gift of giving. When we picked up Zoey Lou, I made a donation to the Humane Society and my step daughter decided she would donate the money she had been saving to the Humane Society!
