

Gabby

My name is Sarah and I got introduced to my fur baby back in 2003. Her name was gabby and she was a little rat terrier that I found in yalls puppy area. When I got her she was maybe 6 months old. I put her down today because 16 is a long time in puppy years and it was time. I just wanted to thank y'all for pairing a 7 year old with her best friend. Everyone says they have the best dog but she was really something else. Because of y'all I have these memories with my fur angle baby. Everything y'all do for these animals is truly special. I can't thank y'all enough.
