

Dear SA Humane Society,

Thank you for being such a force and advocates for pets. Because of your efforts my sister and I have found our forever homes.

My old name was Nebula and I was a long term shelter pet. Soon as my mommy say me she knew I belonged to her. I am still working on my shyness with humans. I do not perform tricks but love walks and treats. I'll allow you to talk to me but if you try to pet me I'll show off my track star skills.

I have made great strides and answer to the name of Luna!

My sister went by the name Blanche and was a puppy. She shows me that the world is not so scary and to have fun. She enjoys playing, walks, attention and food. She is kind of an attention hog. My sister is very silly and I love her so much.

She now goes by the name Athena!

We truly want to thank everyone that donated, fostered, donated, volunteered and took care of us. We are truly enjoying our second chance at life.

Woof, Woof,

Luna & Athena
