

Hi! Not sure if I could have posted this on the humane society FB page but I just wanted y'all to see how Boo (now Merle) was doing! Hope this is OK. :)

Here he is the day I adopted him and just a few minutes ago! He's growing like a weed and is super smart. Already potty trained and knows how to sit. He received his second dose of vaccine on Saturday. We still have a little chewing problem but that's to be expected since he's still a puppy. Thank you so much for this wonderful pup!
