

SUCCESS STORIES!

I wanted to give a quick update on Olive, formerly Sky. Little Miss Olive is now up to 10 pounds and her floof had grown back. Her favorite hobbies include chasing her kitty-mate Pickles, playing with her toys, napping, eating, watching the birds from the windowsill and yelling at me when it's snuggles time."

Her sweet, playful temperament can get her in trouble with Pickles sometimes. It was touch and go with them for a bit, but they have grown to cohabitate well. Hope you
