

SUCCESS STORIES!

“

We adopted **Coco** about three weeks ago and we just wanted to share how happy we all are to have her in our family. She settled very well and quick, loves her brother, plays with toys and everything she can find in the yard. She already made friends in the neighborhood and is just the happiest girl and shows that as much as she can.

“

She and her brother are the best team. He helps her understand the commands during training and she helps him getting more playtime in. But the best are the naps together.

Thank you for everything you do and saving these good souls and giving them a temporary home till they find their forever one.”

- *Tamara and Johnny Quitugua with Boost and Coco (Baby's new name).*
