

SUCCESS STORIES!

“
Lucy is a 6-7-year-old pit bull that was "dumped" at SAHS. She was adopted by my son and daughter in law and became my granddog. They went right to work on weight control and supplements to help with the knees.”

“
She is a perfect "5" weight today, goes for mile long walks with gusto, and runs up and down stairs with no problems. She is also an avid swimmer - who knew? She is now living the good life bossing around her brother, Steve Kurr.”

- Martha Lupo
