

SUCCESS STORIES!

“

She's feeling quite at home...! She's got a new Aussie brother — and an Aussie “cousin” who's a month younger. The cousin lives in another part of Texas and visits periodically. Can't wait for the two girls to meet. The cone of shame look—oh my! — thanks to surgery before leaving SAHS. She's doing great! Slept through the night, cuddles like a pro, and had no accidents.

She is very eager to learn! Especially when treats are involved. Thanks to the kindest people at SAHS! Will post again down the road, after she loses the cone.”
