

SUCCESS STORIES!

“

I adopted **Paisley** yesterday! She was a little scared when we got home – took a little coaxing to get her out of the car – but she’s doing great. My other pups like her a lot, and we all slept together last night! Paisley burrowed under the covers right next to me.”

“

She ate all of her food this morning and has been running around my house like the other little ones do and is even using the dog door already.

I’m glad she’s part of my household! What a gem!”
