JOB DESCRIPTION

Principal Duties and Responsibilities:

- Responsible for examining and processing all received animals (includes properly completing necessary paperwork in a prescribed manner). Processing includes performing basic examinations for infections, infestations, and other medical conditions that may need treatment as well as the following: vaccination, microchipping, collecting blood samples, administering dewormer and heartworm/flea/tick prevention, bathing, and basic grooming.
- Performs diagnostic procedures including; collecting blood samples, fecal flotations, skin scrapes, DTM tests, ear cytologies, bloodwork analysis, radiographs, etc.
- Prepares and sets up animal kennels and related equipment for cage change-outs or newly arriving animals according to specific instructions
- Responsible for administering all medications to shelter animals.
- Responsible for monitoring shelter animals for any signs of illness or behavior issues and communicating these to the Clinic Supervisor, Dog Trainer, and Veterinarian on duty.
- Responsible for monitoring supply needs at all times and promptly communicating needs to Clinic Supervisor and Associate Clinic Supervisor
- Responsible for learning accurate data entry, appointment reservation software, text messaging alert software, and point of sales systems. Responsible for data entry of all veterinary and medical treatments and notes.
- Performs all duties in an efficient and timely manner while staying on task and occupied during the entire shift.
- Responsible for ensuring the comfort, safety and well-being of all shelter animals, including performing hourly walkthroughs of medical animals and isolation patients to maintain this standard of care.
- Responsible for basic medication calculations, record keeping, and knowledge of all medical protocols.
- Rinses scrubs and disinfects animal cages, hallways, floors, and walls in designated area; cleans water and food dishes and related kennel equipment and facilities.
- Capable of monitoring surgical patients during procedures and recovery. Knowledgeable of CPR procedures in cases of emergency.
- Assists in monitoring equipment for proper operation (bloodwork analyzers, digital x-ray, chemical mixers, hose units, microscope, etc.). Learns proper maintenance procedures for all equipment.
- Identifies problems and notifies Supervisor or Veterinarian
- Provides holiday and weekend coverage as required.
- The individual must be capable of functioning independently with minimal supervision.
- Supervises and delegates assisting staff and volunteers. Provides assistance and training to veterinary technician externs.
- Performs or assists with the euthanasia of animals by injection as required. If not currently euthanasia certified, must be willing to become so.
- Capable of handling controlled substances and learning how the electronic controlled drug log works.
- Must support and demonstrate the agency's core values – Customer Service, Adaptability, Respect, Responsibility and Integrity

EDUCATION, EXPERIENCE, KNOWLEDGE, SKILLS, ABILITIES

- Client Education
 - Provides accurate information and friendly professional service to the public and to co-workers in a positive, courteous, truthful and tactful manner. Interacts with all departments cohesively and communicates information effectively. Capable of problem-solving and conflict resolution.
 - Maintains full knowledge of basic animal care in order to educate the public during wellness clinics. This includes familiarity of necessary vaccinations, sterilization benefits, heartworm disease (testing, prevention, treatment). Maintains familiarity of products offered through the shelter, mechanism of action, and basic costs.
-

- o Learn and retain the basics of the spay/neuter procedure, including anesthetic risks, and are able to communicate pre- and post-op information to owners in a competent and friendly manner.
- o Learn and retain the basics of animal wellness (vaccinations, prevention, basic testing) and are able to communicate this information to the public effectively.
