

# Success Stories!

“

Thanksgiving break 2015, we rescued a really ill Dane/ Lab mix. He looked like a sack of bones and was dying of heart worms. He was in REALLY BAD SHAPE, but for some reason I kept circling back to his sad lonely eyes. HE chose ME.”

“He survived 2 Heart Worm injections to the heart, even though they said he may not. He packed on the pounds, reaching a healthy weight. He loved us unconditionally. BAGHEERA was about 4 years old when he rescued us, and gave us another 7 wonderful years of his life. He passed a few weeks ago from natural causes. THANK YOU HUMANE SOCIETY FOR SAVING OUR ANGEL, WHO TURNED AROUND AND SAVED US.”
