

Success Stories!

“

Good afternoon! I saw online about your guys' success stories, I was referring one of my coworkers to you! And I don't know if it means as much to you guys as it does to me but I wanted to share how Chase is doing! I adopted him from you guys in October of last year and he (as well as you guys) changed my life in so many ways. I have no idea how someone was able to surrender him or how he stayed in a shelter for so long but he became my best friend in an instant.”

“

He goes everywhere with me, to the softball games, on road trips and sometimes to work with me (mainly because I look at him and I cannot leave him at home) lol. But I just wanted to share some pics of him too !!

Kara
