Thank you for doing what you do for our pet

community! After many years of wanting a pet, we (me & my son) finally adopted “Tahani” back in June 2022. We couldn’t resist that adorable face and those ears! We renamed her Cleo because of her beautiful natural smoky eyes a la Queen Cleopatra. She has brought so much joy and unconditional love to our home! She is full of energy and has many little quirks that make her one-of-a-kind. She loves being social with both people and dogs and is extremely sweet natured. We have taken her on trips to the beach, rivers, and she absolutely loves going hiking with me! We have walked many miles together and hope to walk many more. Since day one, she has adjusted very well to our family. She had no problem making herself at home as if she'd lived there for many years. She's a great cuddler and loves to beg for belly rubs and kisses. Crate training was a breeze and she has learned a few more commands. “

”

Our family adores Cleo, even our extended family and friends do as well. It’s so easy to fall in love with her! She celebrated her 2nd birthday this past December and even her first Christmas with our family. She was showered with gifts and love. We love our girl and hope to share many more years with her. Thank you for making the adoption process so easy and providing love and care for these animals. We are forever grateful! Here are some pictures of some memories we've shared with Cleo. She's the best pup!

Sincerely,

Nadia, Isaiah, and Cleo
