SANIANTONIO HUMANE SOCIETY SOCIETY

11

We (David & Lorena Flores) adopted Rita (we renamed her Gwen) from you guys on Friday afternoon, and just wanted to provide you with some photo updates as requested by the Cat Room Staff. As soon as we got her out of the carrier at home into our room, she jumped up on the bed and claimed it as hers.

"She isn't quite ready to roam the rest of the house yet and we've quarantined her from our doggie, but I think it's safe to say she's content with her new home. She loves to watch CatTV on her own little TV while we study. Thank you for making it possible for wonderful little animals to find their homes and become a part of a family.
