Stories!

” Just a quick update on JJ...

JJ is settling with Pete and myself and we are settling in with her. She has been to her new vets several times (Country Hills Vets) and the vets and staff come into the room to cuddle with her...when we leave we can smell all the different colognes on her from the women. She is up to 7.8 lbs and her stitches are healed as you can see in this picture.

JJ loves to sit out on the back porch and has learned to navigate her way down the stairs to play in the back yard.

She runs around and chases balls-when she gets tired she plops down to rest.

” She likes to go out to eat and sit on the outdoor patios.

But gets tired before we leave from all the attention.

She likes to nap in my lap on the lazy boy chair.

When it gets close to meal time waits at the pantry door.

She is ruling the roost and training us well! We are very happy to have her in our family.”

Thank you

Susan
