"This is Luther who was originally Dr honeydew

But i dont just call him Luther I call him Luther toother and i sing "Luther toother" in the melody of super trouper by ABBA. From the last pictures we took together to the first on the first day. I cry everyday when him and I spoon thinking about how happy he makes me. He's the best thing that ever happened to me.

And I'm so grateful that I can't even use the restroom without him opening the door and joining me.

Thank you to everyone that helped me find this angel.

"I cannot remember her name but there was a lovely employee that told me about him and a lovely other employee that helped me the first day I showed up and he stayed by my side as I was looking for my angel
