# Stories!

“Hello! When **Stormie (now Angel)** and I met for the first time in the shelter, it was an immediate connection. I **NEW** I would be taking her home. After finding out her unfortunate history (it is believed that she was dumped) I was very determined to make sure every day after adoption, would be the best day ever to her ! And so far, she’s had a blast. She **LOVES** anything outdoors, and she has already done overnight camping, hiking, and running with her family and loves all things active.

“She is a water **FANATIC**, and has already swam in, not one, but two major Texas rivers. She is **VERY** vocal, sassy, and goofy with the largest personality I’ve ever witnessed in a dog. She is perfect for me in every way. I want to thank everyone who took good care of her in the humane society, as she waited for her forever person to come along. I think we may already be best of friends <3
