Stories!

“She’s been so amazing! We created a little safe haven for her full of blankets and the kiddos drew her photos to decorate it. She’s been so sweet and is walking through the house to see what everything is about and we’re all just going off her energy and letting her take the lead. Cuddles this morning. She’s my new coffee buddy! Loving all of the new smells in her new backyard. **Aretha** is loving her big brother. She has her safe space in her crate that we put up for her so that she has a place to feel secure. She’s been such a joy. Thank you for everything ♥

“Aretha is a dan of watching tv on the couch!

Aretha is crushing it! She’s been so amazing and is getting so comfortable! She’s a completely different dog from the day I met her.

Just thought you’d like the update!
