“Hi there!

I adopted **Daisy Mae** in August of 2015, so she's 8.5 years old. She's doing great and living her best life. She's been pretty resilient - once she got out and was gone for two months, but then magically reappeared on the patio! Up until recently she had two doggie brothers, but now it's just she and Roscoe. Her favorite thing is to jump in my arms while I'm wearing my bathrobe, but she also loves to curl up in mine or my husband's lap while watching TV. Anytime a window is open, she's right there sitting on the windowsill looking out. We love our girl!
