

Success HUMANE Stories!

We wanted to let you know LAPIS is loving her

fur ever home with us! Her first appointment is on the 23rd of this month. We renamed her Mittens since she has white paws and it looks like she's wearing mittens. She absolutely loves chasing toys around toys especially catnip balls. She is so playful which we absolutely love! Our kids are adjusting very well to her. Here's a video of her chasing her tail. We are so thankful to all of you at the humane society for everything you do to place animals in forever homes and for taking care of them and for giving us our cat and dog.
