Stories!

“Would absolutely love to share this beautiful photo and give update on our beautiful family member **Ms MayaBee** she is sooo loving and gentle with everyone she comes in contact with and she alone is just so gorgeous to look at and be with. She makes our day and we cannot get enough of her she lightens up our children’s faces and everyone who sees her coming and always asks if they can pet her gently and always ask if they can have a chance of getting a puppy but unfortunately she is neutered. However she gets a lot of love attention and affection. We are so grateful to the San Antonio Humane Society.

They made this supper easy and have always been very helpful and informative on any and all questions I have. Thank you again. We look forward to adopting again in the future with such a wonderful experience who wouldn’t?

Viviana
