“ We adopted **Parker** Wednesday evening and he is already an indispensable part of the family! Nevaeh (9yo) is completely enamored with him and he loves her just as much. He follows her around in the house and will cuddle up next to her on the couch. We are so happy to be his forever family and we are so thankful to the team at SA Humane who helped us meet him and bring him home :)

I just want to share that the puppy my daughter and I adopted back in May saved our lives yesterday. There was a stray dog that jumped me in the parking lot outside our apartment yesterday afternoon while we were walking our dogs (we have Parker who we adopted from y'all and Hopscotch who is my 4 yo Maltese). The stray knocked me to the ground and was attacking Hopscotch, Parker pushed my daughter away and immediately began trying to fight off the stray. He saved Hopscotch and protected me and my daughter. Thanks to him and my neighbors my daughter is completely fine, Hopscotch only has some bruises, and I only have a fracture from the initial fall when the dog knocked me down. He's a hero and has been guarding me ever since I got home from the ER with a brace and crutches. So I just want to thank y'all for making it possible for us to meet him and love him. He has been an absolutely amazing part of the family since we brought him home.

-with love, Niko and Nevaeh
