Stories!

“ Big Harry goes by the name of **Reiner** (rye-ner) now. He is loving life! He eats real food every day, spends lots of time in the sun, and has even become uncle to a 6 month old little puppy called Dot! He loves cucumbers and can catch them out of the air with 98% accuracy. This year for Halloween, he was a member of the Akatsuki and helped make many a child smile as he gave out candy.

Reiner is currently on his second road trip across the country. He has been to over 1/3 of the states now. He loves it in the car, and is super curious about everything out the window. He loves to see new animals and was especially interested in the unsheared sheep in New Hampshire this Christmas.

He loves walks, looking out the window, and especially loves the hose when he plays in his plus-sized kiddie pool. He loves people and kids and is very talkative when he meets someone new. He makes friends wherever he goes.

His hips ache sometimes but he has had an increase in energy and activity over time, and is now so active we can't really believe it. He spends hours each day wrestling his niece. She will grow up strong thanks to him.

He has been nothing but a gentleman since he moved in, and we like to say that he came pre-trained. Since day one he has been part of the family. We are endlessly grateful to have him in our lives.

Thanks for taking care of him until he found us.
